TRUCE CALLED IN BALKAN WAR

**Roumania Apparently Holds
Balance of Power and Pro-
tects Bulgarian Rear**

PEACE CONFERENCE MEETS

**Prospect That End of War Will Be
Reached Within Term of Truce--Al-
banian Problem Solved by Appoint-
ment of Prince as Ruler of New Nation**

London, July 31.—Roumania has become the arbiter of the Balkan situation, by reason of her occupation of Philippopolis. She is guarding the rear of the Bulgarian army, preventing the advance of Greece or Turkey.

A five-days truce is now in effect, and before it expires it is hoped the peace conference, now in session at Bucharest, will have been successful in bringing about the end of the war. This is the more likely as the result of recent engagements has favored the Bulgars, the Greeks being heavy losers.

London, July 30.—The ambassadorial conference has settled the status of new Albania. A scion of one of the royal families will be made ruler of the country, relieving the British government of the necessity of coercive measures. There is today no official news of the Balkan war. The situation appears quieter.

Constantinople, July 28.—Trustworthy reports of appalling massacres by Turkish irregular troops came from districts in Thrace, which the Turks are re-occupying. The country about Malagara, northeast of Gallipoli, according to reports, has been converted into a human slaughter-house.

The Bulgarians pillaged and burned the Moslem villages and massacred the inhabitants, and now the Turks are wreaking dreadful vengeance on the Christian villages which the Bulgarians spared.

The Turkish government issued strict orders to the officers to avoid reprisals by the troops, but they have been unable to restrain the men.

Great Britain Stands Aloof

London, July 31.—Washington has been officially notified that Great Britain has decided not to participate in the Panama exposition. No reasons have been given. The United States government is hopeful that both Great Britain and Germany will reconsider their determination to hold aloof from the exposition.

Port Arthur, July 31.—The British parliamentary party of twenty which is on its way to visit British Columbia arrived here today.

W. J. Alder, a Victoria man who has large interests in Prince Rupert, spent the week in this district. He went to Smithers, and was much pleased with that town and the Bulkley Valley as a whole.

Favorable Reports On New Gold Strike

Vancouver, July 30.—Advices received here from officials of the White Pass & Yukon railway say the strike of rich placers at Shushanna, Alaska, is genuine. Hundreds of stampedeers are going into the new field. The first gold, 200 ounces from the discovery claim, has arrived at Dawson.

Vancouver, July 31.—A despatch to Vancouver board of trade from the board of trade of Dawson confirms the stories of a gold strike at Shushanna, in the White river district.

CANADIAN WINS BIG PRIZE AT BISLEY

Bisley Camp, July 26.—Private Hawkins, 48th Highlanders, Toronto, won the King's Prize of 1913 with an aggregate of 330, out of a possible 355, earning with it the National Rifle Association's gold medal and gold badge, and \$1,250 in cash.

The finish of the last range of the final stage was very exciting, being a keen contest between Color-Sergeant Fenney, 5th Royal Warwick, who finished second with 329, and the winner, Fenny finished his shooting some minutes before Hawkins with an aggregate of 329. Hawkins made a magpie in his fourteenth shot and required a bull on his final shot, which he obtained amid the deafening cheers of the Canadian team.

Col. Sergt. Perry of Vancouver won the King's Prize in 1904 and Private Clifford of Toronto won the trophy in 1911.

The Association cup, ten shots at 1,100 yards which carries only one prize and has the alternative of the cup or \$100, was won by Staff Sergeant F. C. Hawley of the 90th Regiment, Winnipeg, after a tie shoot-off. Corpl. Mortimer won it for the Canadians last year.

Labor Commission Returns

Vancouver, July 30.—The labor commission has returned from its northern trip, which extended as far as Hazelton. Sessions will be held in Victoria, after which the commissioners will go to Ashcroft and Fort George, intending to close the public sittings by the last week in August.

Battleship Welcomed

Vancouver, July 30.—The reception accorded the dreadnought New Zealand, the contribution of New Zealand to the British Navy, which has been in British Columbia waters since Friday, was remarkable for its warmth and unanimity. In Victoria provincial and municipal government vied with each other in entertaining the officers and crew, while Vancouver spared neither trouble nor expense in according a welcome to the visitors.

Ottawa, July 31.—The construction of the federal government grain elevators at Saskatoon and Moosejaw has commenced.

Local and District News Notes

The Union Bank has opened a branch at Smithers.

E. J. Hill, of Smithers, was in town on Thursday, on business.

A girl was born to Mr. and Mrs. James Morgan on Tuesday, July 28.

J. M. MacCormick and Walter Noel returned on Tuesday from a visit to Smithers.

The opening of a postoffice in Smithers is likely to be announced within a few days.

After spending a few days in the Bulkley Valley, Shel Robinson has returned to Hazelton.

E. H. Hicks Beach and G. O. Graham will leave tomorrow for a visit to Vancouver and Victoria.

J. L. King, the surveyor, left Thursday for Prince Rupert, to attend to the registration of plans.

Manager Charles Reid, of the Bank of Vancouver, returned on Saturday from a vacation trip to the coast.

Contractor A. L. McHugh expects to leave in a week or two for a prolonged vacation trip to the coast cities.

R. C. Sinclair returned yesterday from a trip through the Bulkley Valley and into the Fraser lake district.

The railway bridge over the Telkwa river is practically completed. The rails were laid to the east side on Tuesday.

Astronomer McDiarmid is expected to return today from the Groundhog district, where he has been engaged in establishing base lines.

Mrs. Douglas and children arrived from Nelson on Saturday, and have taken up their residence in the cottage formerly occupied by S. H. Crum.

W. W. Wrathall rode his motorcycle to Telkwa in less than four hours on Tuesday. After visiting Smithers, he returned to Hazelton on Wednesday.

As trains are now running to Moricetown, all mails for the Bulkley Valley leave on train days, closing at Hazelton post-office at noon on Wednesdays and Saturdays.

Alderman George W. Kerr, of Prince Rupert, returned yesterday from the Groundhog coal field, where he has large interests. He reports everything looking well in the northern district.

The Foley, Welch & Stewart sawmill at Sealy, which has not been in operation for some time, was burned on Tuesday night. Fire Warden Cline found nothing to indicate the cause of the blaze.

Doctor B. F. Stanwood, the Omineca mining man, who has been seriously ill of blood poisoning at Prince Rupert, is recovering. Mrs. Stanwood is now in Prince Rupert.

An official circular issued by the G. T. P. traffic department announces the appointment of Albert Davidson, formerly city freight agent at Vancouver, as general agent in charge of passenger and freight traffic in Western British Columbia, north

of Rivers Inlet, including Queen Charlotte Islands, vice A. E. McMaster, promoted.

Road Superintendent Willis-croft has gone to Prince Rupert, for a conference with the district engineer. Mrs. and Miss Willis-croft accompanied him to Hazelton, where they are guests of Mrs. Dan Harris.

A. C. Bate, of the Kildare Mining Company's staff, is in from Manson, for supplies. He reports great activity in the placer district, where a number of big concerns are engaged in hydraulic mining.

Two Naas Valley men, Parr and Priestley, were drowned in the Naas River, near Aiyanish, on Wednesday, through the swamping of their canoe. Priestley was one of K. C. C. Taylor's survey party. Parr was a pre-emptor.

Duke Harris returned on Wednesday from a visit to mining properties in the Deep creek and Hudson Bay mountain districts. He was much pleased with the showings he saw and with general conditions throughout the Bulkley Valley.

Rev. John Field and Mrs. Field left on Thursday for England, where they will spend a year. On the eve of their departure they were presented with a substantial purse as a token of the high esteem in which they are held by the people of Hazelton.

At its organization meeting, the newly-formed Caledonian Society elected the following officers: Wm. Grant, president; D. McLeod, 1st vice-president; G. H. Graham, 2nd vice-president; Rev. J. Munro, chaplain; A. Bolland, secretary; C. J. McQueen, treasurer.

A party went to Smithers on Tuesday, in Wiggs O'Neill's automobile. After an inspection of the new railway town, with which they were much pleased, they returned on Wednesday. Included in the party were H. H. Little, A. C. Aldous, O. A. Ragstad, A. R. Macdonald, L. H. Campbell and W. E. Taylor. The latter two are Vancouver men.

W. J. Jephson, formerly of Calgary, a barrister and solicitor of British Columbia, Alberta and Saskatchewan, has opened an office in Prince Rupert, with a branch office at Hazelton. His local office—that formerly occupied by Mr. Howell—will be open from the second Wednesday in each month till the following Saturday. Mr. Jephson's first visit will be on August 13-16.

No patients will be received at the Hazelton Hospital until August 14. A case of scarlet fever has developed in the institution, and as a measure of precaution the medical superintendent has issued a quarantine order. The malady was contracted on the coast, from which the patient recently arrived. The hospital staff anticipates no difficulty in preventing the spread of the disease.

Confidence Returns To British Investors

London, July 30.—The money market is notably easier. The Times announces that the four million dollars of 4½ per cent. debentures issued by the Canadian Northern Pacific, for the construction of its terminals at Vancouver and Port Mann; were fully subscribed before the advertised time for closing the list. The City of Vancouver bonds for \$2,500,000, also at 4½ per cent., were fully subscribed. Among other Canadian securities just listed officially are \$2,000,000 City of Victoria scrip fully paid 4½ per cent. consolidated stock.

BURNED TO DEATH AT NEW HAZELTON

William E. Shultz was burned to death in a fire which destroyed the Bulkley lodging-house at New Hazelton on Tuesday night. The fire originated in the kitchen and spread rapidly. The proprietor of the place evidently made no attempt to arouse any lodgers who might be sleeping in the house, but was the first man out of the building. The victim, who is said to have been under the influence of liquor, was sleeping in a windowless cubicle from which escape was impossible once the fire had spread through the building. Shultz was a teamster and had come from Illinois. He was a Philippine veteran, and was about 30 years of age.

Coroner Hoskins impanelled a jury, and an inquest was opened on Thursday evening. Karruga, the proprietor, admitted that he had made no provision for the safety of his lodgers, nor for the extinguishing of fires. The inquiry will be resumed this afternoon.

Cyclone in Washington

Washington, July 31.—The worst cyclonic storm in the city's history occurred last night. Three were killed and many injured. Houses were unroofed and elm trees a century old were uprooted. The property damage has not yet been estimated.

Heat Wave in the East

Chicago, July 31.—Sevendeadths from heat were reported here today, with hundred of cases of prostration. New York and other eastern cities are also sweltering.

Future Looks Bright

Ottawa, July 30.—Government financial statistics, as made public today, give occasion for optimistic views of the immediate future. Revenues are increasing, and the trade of the Dominion is growing rapidly, while bumper crops throughout Canada are in prospect.

Men Badly Needed

Winnipeg, July 30.—At least forty thousand harvesters are needed for the prairie crops. It is likely that the wheat record will be broken. Cutting will begin about August 20.

SHOT DOWN IN COLD BLOOD

**"Denver Ed" Kelly Killed at
Burns Lake—Former Part-
ner Arrested on Suspicion**

INQUEST NOW IN PROGRESS

**Victim and Suspected Man Had Quarrel-
led Shortly Before Murder—Prisoner
to Have Preliminary Trial at Alder-
mere—Murdered Man Well-Known**

"Denver Ed" Kelly, a well-known character who had followed railway construction to Burns Lake, was murdered at that place on Tuesday morning. On Monday evening Kelly had an altercation with Jerry Mulvihall, who was formerly his partner. Exasperated by Mulvihall's abuse, Kelly gave him a severe beating. About two in the morning, as Kelly was standing at the counter in Springsteen's cigar store, talking to two friends, a rifle was thrust through the window and fired. The bullet passed through Kelly's head, causing death two hours afterwards. Mulvihall, who is said to have threatened Kelly, was placed under arrest by Constables McInnes and Munro, who were summoned from Decker Lake. The prisoner is now on his way to Aldermere, where he will probably receive his preliminary trial on a charge of murder.

Deputy-coroner Wallace and Constable McAulay arrived at Burns Lake last night, and an inquest will be held there today. Chief Constable Gammon has gone to Aldermere to take charge of the case.

Opposes Russian Immigration

Victoria, July 31.—Mayor Morley has sent a protest to the federal immigration department in an effort to prevent the landing of Russian peasants, who are shortly to invade the province in large numbers.

Chinese Rebels Busy

London, July 31.—The revolutionary movement in China has created a serious condition. Despatches from Peking and other Chinese cities are conflicting.

Peking, July 29.—The American consul at Hankow reports that a Standard Oil boat and a British boat were fired on yesterday near Yechewhunan, indicating that the troops of that rebellious province are still continuing their murderous work.

The government is in a state of chaos. Half the cabinet offices are vacant and there are no applicants for the vacancies.

Shanghai, July 29.—Rebels to the number of two thousand started another fierce attack on the arsenal yesterday and maintained a brisk fire. The government warship shelled the rebels' position and the firing on both sides was intermittent for three hours. Many shells from the rebels fell into the foreign settlements.

VOL. II. SATURDAY, AUGUST 2, 1913. No. 48.

The Omineca Miner has the largest bona fide circulation of any newspaper in the Northern Interior of British Columbia.

Many visitors from outside points have looked over the district tributary to Hazelton during the last few weeks, and one and all have been pleased with the natural resources of this section, and with the evidences of progress and prosperity which are to be seen on every hand. Newcomers are pleasantly surprised to find that the business depression, which apparently exists everywhere else, is not evident in the Northern Interior. Here, while the financial stringency in the money markets is felt to a certain extent, people are too busy building up the country to think about hard times. Nevertheless, the reassuring news which comes from London and other financial centers as to the improvement of conditions; the prospect of bumper crops throughout Canada, and the growth of confidence among investors everywhere will be welcomed by the people of Omineca district. When the men of money again loosen their purse-strings, the Northern Interior may look for an influx of capital such as it has never before known, for the development of the great resources which will in time make it one of the banner sections of the Pacific Province.

From time to time statements appear in the press, relative to the amount of standing timber in British Columbia, its increase by natural growth and the depletion caused by industrial operations and fire, and there is a tendency to speculate as to whether this resource of the province is inexhaustible. It may be stated that according to a conservative estimate made by the forest department the total stand of commercial timber in the province is not less than 300,000,000,000 feet. At present the lumber output is about 1,250,000,000 feet per year. The natural growth of the forests of British Columbia yearly is approximately 6,000,000,000 feet or nearly five times the amount cut, so that unless depletion caused by fire becomes very much greater in the future than it has been in the past it is safe to assume that the timber resource is, to all intents and purposes, inexhaustible. The forestry department has embarked on a policy that intends to keep pace with trade development in the matter of forest fire protection. This province possesses an unique opportunity as it has taken up the conservation of its forests at a very early date in the history of the great natural growth, and it is almost certain, if the forest fire protection service is increased with expanding needs, that the timber resources of this province will remain inexhaustible. In addition, the duty of the forest branch is to establish an active and well guarded policy for the utilization of mature timber along lines that will encourage legitimate development and provide for the utilization and improvement of the forests.

The average life of untreated ties as reported by the steam roads is as follows: cedar, nine years; tamarack, eight years; hemlock, seven years; Douglas fir, seven years; jack pine, six years; spruce, six years. As recent statistics bear evidence, cedar is the species principally used, because of its durability, but the supply of cedar is rapidly becoming exhausted. Unless preservative treatment of ties is introduced, the short-lived species will have to be used untreated, which, on account of the necessary frequent

renewal, will increase the cost of mileage maintenance. If treated ties were used, which would cost thirty cents extra per tie for creosoting and equipping with tie plates, the inferior species, which are very plentiful and cheap in Canada, could be used with economy. With such a treatment these woods would last at least fifteen years, and if protected from wear would probably last much longer.

Chicago, Milwaukee & St. Paul railway officials say that complete reports on the 5,000 tons of steel rails, which the company ordered last year with an alloy of 0.6 per cent. copper, which were laid in various sections of the system, principally in the north-west, show that not one broken rail has been found in the lot. This is considered a remarkable showing. The company has ordered 10,000 more tons of the same copper-steel rails and if the result is similar, will adopt this rail as its standard.

Forestry Regulations

Ottawa, July 28:—Even more stringent this year are the regulations designed to prevent forest fires along railway lines in British Columbia, for by an order just handed down by the railway commission, following a hearing early this month at which the commission of conservation for the province of British Columbia and the railway companies were represented. The order first provides for mesh netting guards over all smokestacks and fire-boxes and requires the railway companies to keep inspectors, who must record the condition of these meshes every month and report to the commission's engineer.

The chief fire inspector will each year submit to the railway companies the measures which will be necessary for fire prevention and the railway companies are ordered to maintain from April to November forces of fire rangers in dangerous districts, these gangs to be under the supervision of the fire inspector. Another new regulation compels engineers, under heavy penalty, to report by telegraph to the superintendent at any divisional point the existence of any fires near or upon the right of way, and if reasonably supposed that

fire has been started through the fault of the railway the superintendent must order out all available section men and other regular employees in sufficient numbers to extinguish the fire. Instruction to this effect must be published in the operating orders book previous to April of each year. All engines on any division must burn nothing but oil fuel under conditions approved by the railway board. The latter can relieve the railway of any portion of the new regulation if it sees fit, but every railway can be penalized \$100 for each offence for failing to obey these regulations.

NOTICE

IN THE SUPREME COURT OF BRITISH COLUMBIA and in the matter of the Administration Act, and in the matter of the estate of Edward Godyard, intestate.

TAKE NOTICE that by an order of His Honour Judge Young, made the 8th day of July, 1913, I was appointed Administrator of the estate of Edward Godyard, deceased. All parties having claims against the estate are hereby required to forward the same, properly verified, to me, on or before the 19th day of August, 1913, and all parties indebted to the said estate are required to pay the amount of their indebtedness to me forthwith.

STEPHEN H. HOSKINS
Official Administrator
Dated 14th day of July, 1913

volumes of poems, has been ap-
pointed poet laureate of Britain.Wisconsin has passed the Eu-
genic marriage bill, requiring all
applicants for marriage licenses
to undergo medical examination.A placer strike is reported from
Shushanna, Alaska. Stampede-
ers are trying to obtain passage to
the scene by aeroplane from
Fairbanks.It is reported that Dr. Sun
Yut Sen has had to leave China
hurriedly, in consequence of his
sympathy with the southern re-
volutionaries.The world's peace congress
will be held at The Hague from
August 18 to 23.A shipment of 125 live foxes,
destined for eastern silver fox
farms, arrived in Vancouver,
from Alaska. They are valued
at \$100,000.Taking advantage of the im-
proved schedule of the new
C. P. R. steamer Empress of
Russia, John H. Mears, a New
Yorker, expects to travel around
the world in thirty-five days.Two suffragettes were arrested
in Glasgow as they were about
to set fire to a large mansion.
Two others were taken in charge
while trying to hold a meeting
at the central entrance to the
house of commons.There has been a recurrence
of volcanic action near Kodiak
and Iliamna, and reports from
Alaska say the sky has been
filled with vapor and volcanic
ash, as was the case after the
big eruptions of last year.United States government re-
ports show that half a billion
dollars of American money is
invested in Canada, largely in
manufacturing plants. Many of
these have been established late-
ly, owing to the defeat of the
reciprocity proposals.

Hazen on Naval Bill
 Vancouver, July 28.—Declaring that the action of the Senate had only postponed the Canadian naval policy advocated by Hon. R. L. Borden and the Conservative party at the last session of the Dominion parliament, Hon. J. D. Hazen, minister of marine and fisheries, roused his auditors to a tremendous pitch of enthusiasm when in the course of a speech delivered at the Conservative picnic on Saturday afternoon he definitely announced that the original programme for assisting the Mother Country in defending the Empire would be carried out when the house met next session.

Brilliant speeches were made by Sir Richard McBride, Hon. W. J. Bowser, Mr. H. H. Stevens and other parliamentary representatives, but particular interest was aroused by the masterly exposition of the government's naval policy and arraignment of the Opposition given by Mr. Hazen who, as a minister of naval affairs, in conjunction with Premier Borden, had drafted the naval bill.

Panama Tolls
 Ottawa, July 28.—The question of toll exemptions on the Panama canal and the discrimination which it would involve against foreign shipping, despite the opposition of a certain section of the Democratic government of the United States, will be submitted to The Hague for arbitration. The British, along with Canada's own case, will be heard before one of the regular tribunals in Holland.

The Dominion government has received intimation from the Imperial government to at once set about preparing briefs to be submitted to the arbitration, and also to name commissioners, who will work in concert with the British commissioners.

Prince Rupert Fair
 Prince Rupert, July 30.—The directors of the agricultural and industrial exhibition which is to be held in Prince Rupert, September 24-26, states that all indications point to a most successful fair. Alderman Bullock-Webster, secretary of the association, says that besides the usual display of live stock, poultry, dairy products, flowers, fruits, garden and field crops and grains, there will be a dog show. The initial undertaking includes a most ambitious programme for the three days. There will be water and athletic sports and a log-chopping contest in which ex-Champion Murray of Australia will participate. Ten Indian bands will be present in competition, under the direction of J. S. Gray, who has successfully managed previous similar events.

A cup is to be given for the best display of ores from any district, and it is expected that the miners of this section will make a strong bid for the trophy.

Eberts May Be Judge
 Victoria, July 30.—It is believed that Speaker Eberts, of the provincial legislature, will receive one of the new judgeships for British Columbia provided for during the last session of the Dominion parliament. The appointments will be gazetted in the course of a few weeks.

Calgary, July 31.—Hon. A. G. McKay, Liberal, was returned in the provincial by-election at Athabasca Landing.

United States Undecided
 Washington, July 28.—While administration officials believe that the crisis will not reach Mexico until the northern rebel armies press closer to Mexico City and the federal strongholds, there are indications that an effort will be made by the Washington government to pursue a well defined policy before events have reached that critical stage. Ambassador Wilson is of the opinion that a tripartite commission would be against the Monroe doctrine, as it involves the calling upon outside governments for help. He is reticent upon the policy of American intervention and also upon the recognition of the Huerta government by the United States.

Washington, July 31.—There is no apparent improvement in the condition of affairs in Mexico. The United States government has not yet decided upon a course of action. It is reported that Colonel Roosevelt is re-organizing his rough riders for service in Mexico in event of American intervention. This is not credited in official circles.

Vancouver, July 30.—Mining Engineers Bernard Macdonald and Charles Beisel, who were imprisoned under sentence of death in Mexico, have been released by the Huerta government. They are well known in British Columbia, having been for years connected with mines in Rossland and Nelson.

Three Fall to Death
 St. Moritz, Switzerland, July 27.—Three Alpine climbers were seen to fall 3,500 feet off the Salliers tower of the Dent Du Midi last night. They are believed to be Frenchmen, who ascended the peak without a guide, despite warnings of danger.

Copper Strike Ending
 Calumet, July 28.—Mine operators of the Superior copper district prepared today to follow the advice of the militia commanders and resume operations with every available man of the 15,000 miners who have been idle here since July 23 as a result of the Western Federation of Miners' strike.

Forest Fire Films
 Victoria, July 28.—Moving pictures of the inception and growth of a forest fire, the methods employed for summoning aid, actual scenes of fighting and subduing the flames with the thrilling incidents involved are to be taken for the Provincial government. An English expert has been engaged to get films of the system of forest fire protection that has been installed, showing it at work in its various departments. These will be exhibited at Eastern Canadian and British centers of population. In addition the film artist will take a series of pictures of the logging industry of British Columbia. It is proposed to reproduce on the films every phase of the industry. Virgin forests will be shown.

O. B. Eller, an insurance agent who was on his way from Hazelton to Fort George, was thrown from his motorcycle at North Bulkley on Sunday, sustaining a broken leg. He was taken to Telkwa, where his injury was attended to by Dr. Wallace.

Fresh fruits and vegetables at Sargent's.

Highwayman Escapes
 Victoria, July 28.—That the bandit who for ten days defied the posse of provincial police, county officials and others who sought to effect his capture on Shaw Island has got clear away, is the belief of the authorities. The search and blockade of Shaw Island came to a close Saturday, when the provincial police were withdrawn.

It was no secret to the police that the settlers on Shaw Island have persistently assisted the bandit, supplying him with food, dressing his injuries and otherwise succoring him, while at the same time misleading his pursuers by contradictory accounts of his movements. It is the belief of the police that the man's escape from the island was facilitated by some of the settlers, the report being to the effect that he was provided with a boat and taken off in women's clothing.
